

Educational Institutions (Universities and Schools)

Our main priority is to keep your laboratory equipment working in optimal conditions. Whether it is preventive maintenance, calibration or repairs, we offer expert help, professional services and fast response to your needs. Also, we can offer the option of maintaining your asset/equipment inventory for maintenance and calibration controls.

Calibration, maintenance and repair for the following laboratory equipment:

- Incubators (temperature, relative humidity, O2 and CO2)
- Refrigerators and freezers
- Ovens and muffles
- Centrifuges
- Biological extractors (fume hoods)
- Thermometers (LIG and digital)
- Sterilizers
- Microscopes
- Spectrophotometers
- Pressure indicators, differential pressure and vacuum.
- pH meters, ORP, and dissolved oxygen
- Scales
- Liquid baths
- Humidity analyzers
- Others

TRAINING

We offer training in areas related to good manufacturing practices (cGMP), good documentation practices, basic qualification and validation principles, qualification of water systems used for medical products, qualification of HVAC systems and Clean Rooms. We can also provide tailor made trainings, according to your special requirements. We are certified by the Puerto Rico College of Engineers and Surveyors to provide continuing education.

All our services are performed using International ISO9001 and ISO17025 Quality guidelines. Feel free to contact at contactus@provensmart.com or 787.807.7877 us to discuss your needs and/or application.
